June 2007

Dear Parent:

The Continuity of Care (COC) Program through The University of Iowa Children's Hospital was instrumental in developing this Coordinated Care Record, a special tool that we feel will be helpful in providing support and guidance to parents of children with special health care needs. We are very appreciative of a series of documents and patient education materials developed by the Division of Specialized Care for Children at the University of Illinois at Chicago that have assisted in the creation of this handbook.

We also gratefully acknowledge the Children's Miracle Network for providing 100% of the funding for the Coordinated Care Record. We are especially indebted to the families who have shared their hopes, fears, and joys and without whom we would not have had the feedback and input necessary for this project.

We would like to acknowledge the following people for their work and special contributions in making the Coordinated Care Record possible:

Patty Pressley, RN, former COC employee  
Ann Brownsberger, Handicare Program Director, Iowa City, IA, and daughter, Allison  
Julie Munson and daughter, Faith  
Genna Kramer and daughter, Maria

Sincerely,

Janine Petitgout, ARNP  
Program Director  
Continuity of Care Program
