

ACLS Anywhere

HeartCode ACLS provides an alternative training solution for the busy professional. This course is delivered in two parts. Part one is self-directed learning featuring microsimulation. Part two is hands-on testing with an American Heart Association (AHA) Instructor. Successful completion of both parts results in an AHA course completion card.

This ACLS learning program allows participants to practice techniques at their own pace and receive feedback/evaluation of their skills through microsimulation and interaction with an AHA Instructor.

Getting started:

- 1. Purchase the Heartcode™ “ACLS Anywhere” CD from one of the following vendors: (\$120)**
Channing Bete aha.channing-bete.com
Laerdal www.laerdal.com/ecc
World Point www.eWorldPoint.com
- 2. Complete the CD component and print certificate.**
- 3. Contact Lee Ridge (319.353.8434) to schedule your skills testing in the EMSLRC. The \$50 testing fee includes staff time and ACLS course completion card.**
