

Residency Program Director

The Department of Family Medicine at the University of Iowa is seeking a Residency Program Director who is passionate about education, patient care and the opportunity to develop and guide the next generation of Family Medicine physicians.

Our Residency Program is a well-respected 6-6-6 program. We also sponsor a combined Family Medicine/Psychiatry program and admit two residents each year into the combined program. Our innovative residency education approach incorporates a longitudinal learner-centered, competency-based curriculum utilizing adult learning principles. We practice and teach a full-spectrum of family medicine, including obstetrics and inpatient care.

We are part of the University of Iowa Health Care, Iowa's only academic medical center, located in Iowa City. We have outstanding quality of life in Iowa City, for example:

- Ranked 18th among the top 25 green cities in the country.
- Ranked 4th in public education.
- One of the top 50 best places to live and play
- Number 8 in up and coming tech cities.

In the area, we have lakes, rivers, streams, hiking, and, of course, Big Ten Sports. The area also has 13 museums, 10 literary presses and six community and professional theatre companies.

This is an unsurpassed opportunity to join our existing MD, PhD and PharmD faculty in a leadership role at a defining time for Family Medicine.

Salary is commensurate with experience.

A position description, including responsibilities and qualifications may be found at <http://www.uihealthcare.com/depts/med/familymedicine/employment/index/html>.

For consideration, please apply online at <http://jobs.uiowa.edu/> on requisition No. 59381.
