Quality Case Manager (Program Associate I)

The University of Iowa Hospitals & Clinics has an opening for a full-time Quality Case Manager. The Quality Case Manager is responsible for coordinating hospital wide implementation of evidence-based practices related to JCAHO/CMS Core Measures and/or national quality and patient safety standards. The Quality Case Manager will assist UIHC faculty and staff in driving processes to help UIHC achieve top performance in targeted quality and patient safety initiatives. The successful candidate is detail oriented to ensure accuracy of project reports, and will facilitate compliance with targeted evidence-based standards at the point of care, understand these standards, monitor performance, and provide real time feedback to clinicians.

To apply for this position, visit our website at <http://jobs.uiowa.edu/> and reference requisition number **57624** – Program Associate I.

The University of Iowa is an equal opportunity/affirmative action employer. Women and minorities are encouraged to apply.
