

Job Opportunity
Advanced Practice Nurse-Supervisory (APN-S)

**Would you like to work for one of the leading
evidence-based practice centers and Iowa's 1st Magnet hospital?**

The Offices of Research, Quality and Outcomes Management (RQOM) in the Department of Nursing Services and Patient Care at the University of Iowa Hospitals and Clinics is currently seeking two full-time Advanced Practice Nurse-Supervisory.

The RQOM team provides an action-oriented framework that values and promotes quality patient care via excellence in clinical practice, research, and evidence-based decision making. It integrates evidence-based practice activities into quality and outcomes management decisions toward improving care delivery, organizational performance, and patient outcomes while assuring a safe environment for all.

The RQOM team specifically promotes improvement in patient outcomes by basing clinical and organizational decision making on research findings and data obtained through comprehensive, ongoing monitoring of patient outcome indicators identified from established patient standards. This dynamic and synergistic group provides local as well as national leadership in improving patient outcomes.

A great opportunity to join a winning team!

Requirements:

- Master's degree in Nursing or Related Field
- Current license to practice registered nursing in Iowa
- Effective interpersonal, written and verbal communication skills
- Demonstrated experience in research, quality measurement, and evidence-based practice
- Demonstrated skills in Management/Supervision and interdisciplinary collaboration are required
- Ability to transform data into information for clinical and operational decision making
