

To some nurses, it's just a job.
To ours it's a calling.

Heartfelt thanks to our Magnet nurses.

A top notch nursing staff has many great qualities. Ours has been recognized for having them all. Talent. Teamwork. Integrity. Compassion. Respect. First in the state to achieve the prestigious Magnet designation from the American Nurses Credentialing Center, the nursing staff of University of Iowa Hospitals and Clinics brings a level of dedication to patient care and safety that is unsurpassed. For the difference they make in the lives of patients and families—and for their tireless expertise—we say this: you inspire us. Thank you.
